The future of vessel management

December 2017

A portrait of Erik Hånell, a middle-aged man with short, light brown hair and blue eyes. He is wearing a dark blue suit jacket, a white dress shirt, and a red patterned tie. The background is a bright, cloudy sky with a blurred cityscape and a body of water in the distance.

## TOUCH DOWN BUNKERS

Interview with Yvonne Rittfeldt

A woman in a dark blue dress and a man in a suit are cutting a red ribbon at a naming ceremony. They are surrounded by other guests, including two women in red dresses. The scene is set outdoors with a red carpet and a large floral arrangement in the foreground.

# STENA IMPERATOR & STENA IMPRIMIS

Naming ceremony in Guangzhou, China

**THE STENA IMPERATOR SIDE BY SIDE** with her sister the Stena Imprimis were named at the Chinese shipyard GSI in Guangzhou the 22nd of August.

It was indeed a very hot summer day when hundred or so guests from all over the world gathered on the quayside at the shipyard for the double naming ceremony.

The two proud godmothers – for Stena Imperator, Ylva Syrén Carlsson and for Stena Imprimis, Denise Baum – as tradition dictates, wished the vessels, their captains and

crews fortune and prosperity on the seven seas and swung the bottles of champagne against the tankers' bows.

It was a spectacular sight with the two sister tankers beside each other and the somewhat unusual situation as such made the naming ceremony a bit special and extra festive.

The captain on board Stena Imperator was Mikhail Kutuzov and Alexey Vaganov served as captain on board the Stena Imprimis.

Traditionally in conjunction with the naming ceremony when at the shipyard we make a donation to the shipyard to be used in a suitable project. In this case, USD 15,000 were donated to GSI's shipyard workers as well as USD 15,000, half of which was donated to a nursing home and half to a Kindergarten, both related to GSI.

# BRAND CONSOLIDATION

Company names consolidated in  
the Stena Tanker group

BY NOVEMBER 1<sup>ST</sup> WE AS AGREED gave the Weco name back to Johan Wedell Wedellsborg. So as informed earlier the name will now be Stena Bulk but divided into the three branches: Crude & Fuel, Product & Chemicals and LNG.

What has been done so far regarding this name change which mostly of course affects Stena Weco is change of e-mail addresses and all printed matters and branding where we have used the Stena Weco name. Stena Weco web-site has also been shut down and material has been moved into the Stena Bulk site.

Going forward we will also update the Stena Bulk 24/7-film to add the new Copenhagen office instead and also include the Dubai office.

## CRUDE & FUEL

Oil should always travel first class

## PRODUCTS & CHEMICALS

First class seaborne solutions

## LNG

Gas should always travel first class

A woman with dark hair, wearing a white long-sleeved dress and a wide-brimmed white hat with a dark band, is smiling and looking to her left. She is holding a small bouquet of red roses and white flowers. In the background, there is a large red and white ship structure, likely the deck of a vessel, with some text visible on a white panel that includes "Stena Bulk".

# STENA IMPECCABLE

Naming ceremony in Rotterdam, Netherlands

THE STENA IMPECCABLE WAS NAMED in Rotterdam the 27th of June. It was a sunny day when the guests gathered for the naming ceremony.

The proud godmother was Trintje Margaretha Oosters, from Dutch RVB Company with which Stena Bulk and Stena Weco have a long-lasting relationship.

The naming ceremony took place from a boat in the Port of Rotterdam where the vessel arrived late just the day before.

Stena Impeccable was delivered in the beginning of March this year and after delivery she sailed from China to Australia with a cargo of caustic soda. After that she sailed with vegetable oil from New Guinea via Singapore and the Suez Canal to Rotterdam.

After the naming ceremony, the vessel left Rotterdam with Captain Vinay Singh at the helm for Brake in Germany where she discharged the remainder of the cargo.

The Port of Rotterdam is the largest port in Europe and our fleet often calls there. That's why we also have many business contacts in the area and we took the opportunity to gather them in conjunction with this naming ceremony

# DID YOU KNOW?

Interesting facts about Stena Orbit

- With the help of Machine Learning Orbit can predict the tanker market along a variety of standard routes up to 14 days into the future.
- Orbit is tracking 8000 tankers worldwide – that's 70 million positions per year.
- With AIS positioning, we can track our competitors' port calls all the way down to terminal and berth level.
- Orbit has daily bunker price indications for the 70 most common bunker ports.
- Competitor tracking function allows you to get live feed of other Owner's trading patterns. It even allows you to see if their ships are loaded or travelling with ballast.
